BRIEF DESCRIPTION OF SUBJECT

The goal of this course is to increase the students' linguistic awareness of certain areas of the English language, especially those which are markedly different from Catalan/Spanish.

OBJECTIVES

By the end of the course the student should be able to explain and exemplify, using the tools learned, those aspects of English grammar covered.

SYLLABUS

The major areas of English grammar will be covered, with a special emphasis on those areas where there are bigger differences between English and Catalan/Spanish: the structure of the NP; article usage; the verb phrase; uses of the English tenses; the modals, lexicalization patterns.

ASSESSMENT

The course will be evaluated as follows:

- Final exam: 55%
- Paper + presentation: 35%
- Homework and in-class assignments: 10%

Note: The level of English will be taken into account when correcting written work and in the final assessment.

Important: All assignments submitted MUST be word processed.

TUTORIALS

The *Tutoria integrada* will be done virtually, using the *Campus Virtual*. Tutorials will be devoted to the supervision of the paper.

OBSERVATIONS

Important warning

Past experience has shown that students who have not passed *Anglès Instrumental II* will have serious difficulties in reaching the required standard. This subject is at a higher level than *Anglès Instrumental II*.
