Alert 2024! report on conflict, human rights and peacebuilding is an annual publication of the School for a Culture of Peace which analyzes the state of the world in connection with conflicts and peacebuilding based on four areas of analysis: armed conflicts, socio-political crises, peace processes and gender, peace and security.

The **School for a Culture of Peace** was created in 1999 with the aim to work on culture of peace related issues, such as human rights, analysis of conflicts and peace processes, education for peace, disarmament and the prevention of armed conflicts.
