Report on conflicts, human rights and peacebuilding

Gender, peace and security in 2023

23 of the 36 armed conflicts in the world in 2023 took place in countries with low levels of gender equality

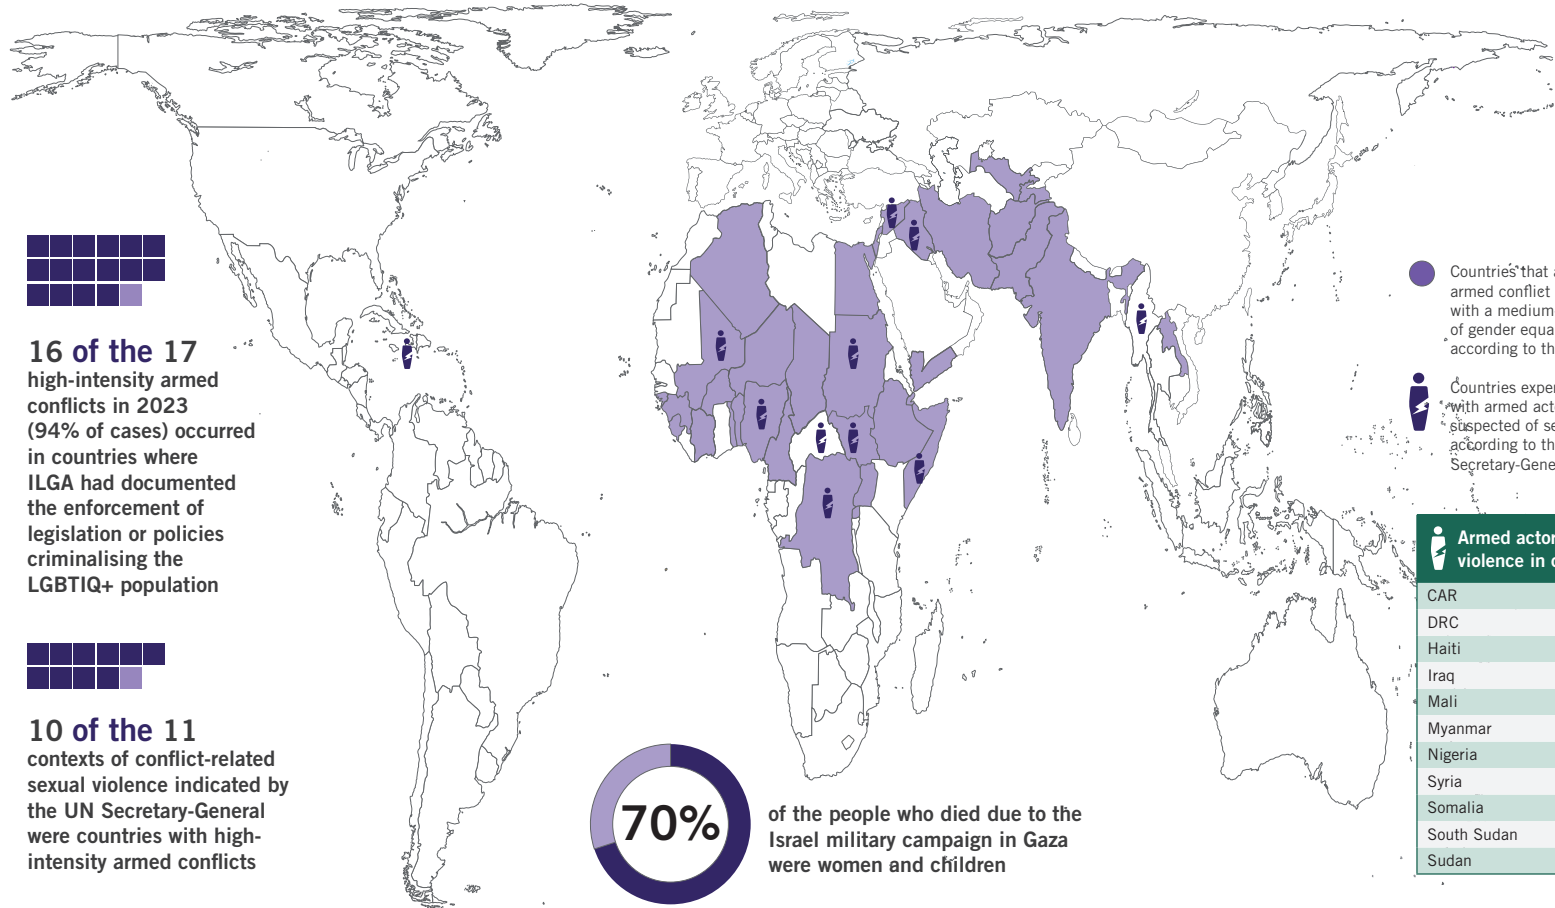

88% of the high-intensity conflicts occurred in countries with low-or medium-low levels of gender equality

The UN Secretary-General noted a new setback in women's participation in peace processes

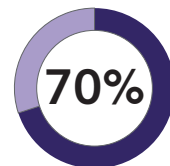

MONUSCO (DRC) and MINUSCA (CAR) peacekeeping missions accounted again for 90% of the allegations of sexual exploitation and abuse

16 of the 17 high-intensity armed conflicts in 2023 (94% of cases) occurred in countries where ILGA had documented the enforcement of legislation or policies criminalising the LGBTIQ+ population

10 of the 11 contexts of conflict-related sexual violence indicated by the UN Secretary-General were countries with high-intensity armed conflicts

70% of the people who died due to the Israel military campaign in Gaza were women and children

- Countries that are the scene of armed conflict and/or tension with a medium-low or low level of gender equality in 2023 according to the GDI
- Countries experiencing conflict with armed actors who are suspected of sexual violence according to the UN Secretary-General's annual report
