# Gender, peace and security in 2024

**22 of the 37** armed conflicts in the world in 2024 took place in countries with low or medium-low levels of gender equality

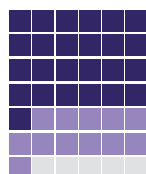

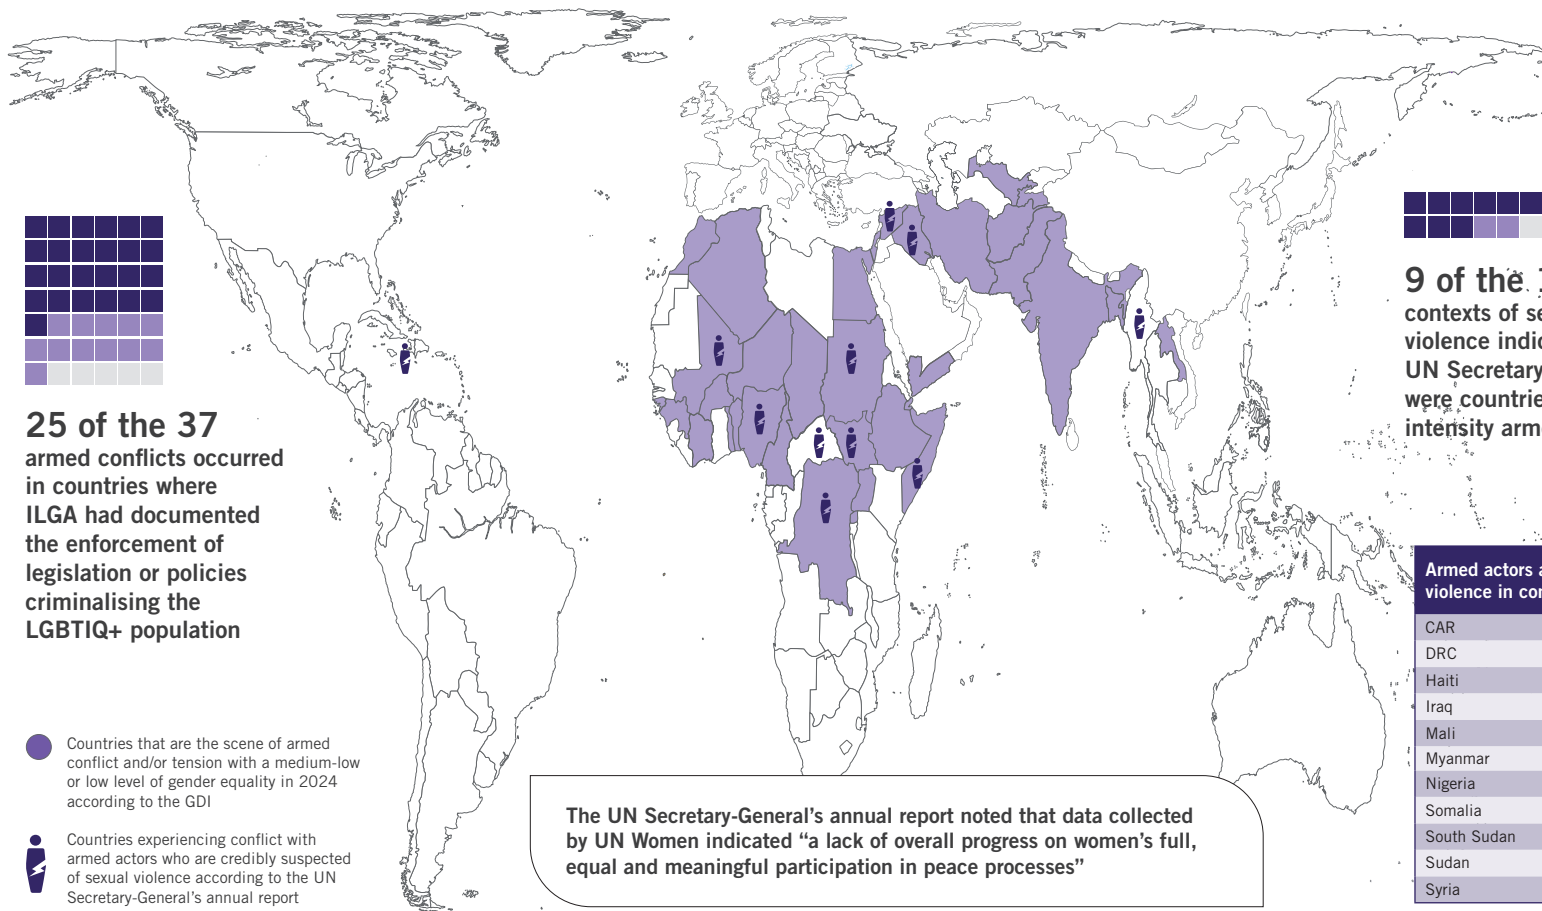

79% of the high-intensity conflicts occurred in countries with low or medium-low levels of gender equality

**26 countries** involved in peace negotiations had a National Action Plan in place to promote the participation of women in these processes

The United Nations reported a record number of cases of conflict-related sexual violence in 2023, with a 50% increase over the previous year, aggravated by the proliferation of weapons, militarisation and new conflicts

**25 of the 37** armed conflicts occurred in countries where ILGA had documented the enforcement of legislation or policies criminalising the LGBTIQ+ population

**9 of the 11** contexts of sexual violence indicated by the UN Secretary-General were countries with high-intensity armed conflicts
