

**Table 1** GLA production (in  $\mu\text{g}/\text{mL}$ , at 5 days post-transfection) and the distribution for each enzyme form in the different cellular fractions

	Extracellular	Intracellular	
		Insoluble	Soluble
Protein amount ( $\mu\text{g}/\text{mL}$ )	85.8	69.7	18.5
Percentage to total amount of recombinant GLA expressed	49.3%	40.1%	10.6%
