

# EGRETA

Environment of research  
and transfer management

It is an improvement for the university community in accessing, entering, tracking and searching data.

**COMFORT**  
**AGILITY**  
**TRANSPARENCY**

## IT GIVES YOU

Ease of search and transparency in information management

Improves the visibility towards the scientific community and society through the **public portal**. Disclose your experience and expand it by including publications, books and book chapters, conferences, patents, courses, teaching...

Easy data update. Additionally, with data in a single environment, Egreta modernizes **reporting** to justify strategic decisions.

## EGRETA HELPS YOU TO:

- Recover your research output of internal and external bibliographic databases and mentions in the media.
- Make data exploitation comfortable with the generation of predetermined or custom-made reports. You can schedule reports with updated content and make regular deliveries.
- View your citations, h-index and other bibliometric indicators.
- Extract directly the CVN and CVA certified by the FECYT.
- Follow up on grant management.
- Expand your network of internal and external collaborators through the Research Portal.
