M.C.Vicente

Dear Sir,

My research is about Diplopoda; some time ago I set for study from your Museum The type of S.hispanicum. I am now occupied by some species of Macellolophus Verhoeff 1931 and I am interestd specially in the types of two species described from our country: M.excavatus and M.hispanicus, so I would appreciate very much if you could send me both types for study.

Waiting for your response I am

Yours sincerely.
