

Zoologisches ----

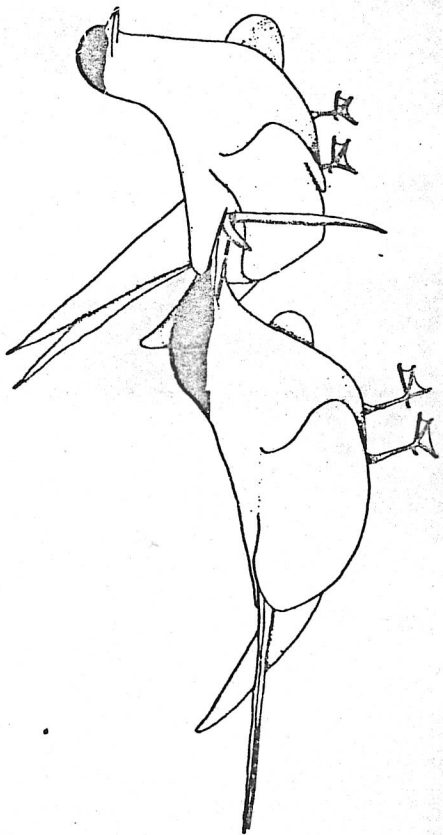

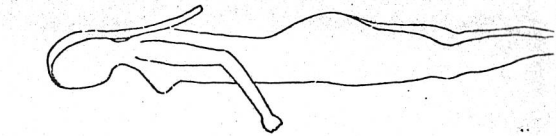

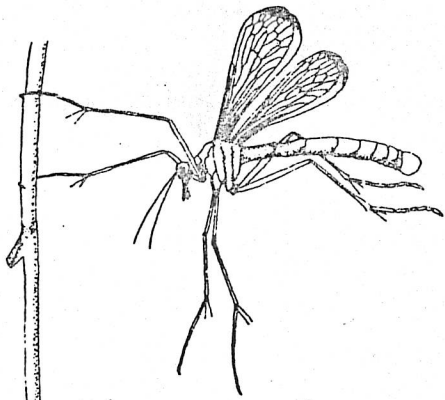

Insect Anter.

Dear Sir,

my research is about Diplopoda; some time ago I set
for study from your Museum the type of ^{S.} ~~O.~~ hispaniculum. I am
now occupied by some species of Macellolophus Verbeek 1934
and I am interested specially in the types of two species
described from our country: M. excavatus and M. ^{hispanicus} hispanus
so I would appreciate very much if you could send me
both types for study.

Waiting for your response I am

Yours sincerely,

ETIOLOGIA
