23.vii.1985

Dear D<sub>r</sub>. Vicente,

Many thanks for your kind letter of 15.vii., and for the parcel with Paratyphloiulus lagari on loan. I look forward to examining them in detail.

After having finished the revision of julids related to Paratyphloiulus my plans are to revise the genus Dolichoiusulus, especially the Macaronesian species. Furthermore, I have remote plans about revising Ommatoiulus. With both these projects, I shall certainly need to contact you again.

Separately, I am sending you my reprints on Diplopoda, as far as available.

Perhaps ypu will attend the next myriapodological congress in Padova, 1987? I intend to go and would be pleased to meet you.

With the best wishes,

yours sincerely

Henrik Enghoff
