01 - INTRODUCTION

How can we assess and evaluate the capacity of a state to protect the citizens?

What guidelines could States apply in order to protect their citizens?

02 - SUSTAINABLE DEVELOPMENT GOALS RELATION

Goal 13. Climate Action

Strengthen resilience and adaptive capacity to climate-related hazards; Integrate climate change measures into policies, strategies and planning; Improve education, and capacity on climate change mitigation, adaptation, impact reduction and early warning; Promote mechanisms for effective climate change-related planning and management in least developed countries

Goal 9. Industry, Innovation, and Infrastructure

Develop sustainable and resilient infrastructure; Facilitate infrastructure development in developing countries through financial, technological and technical support

Goal 11. Sustainable Cities and Communities

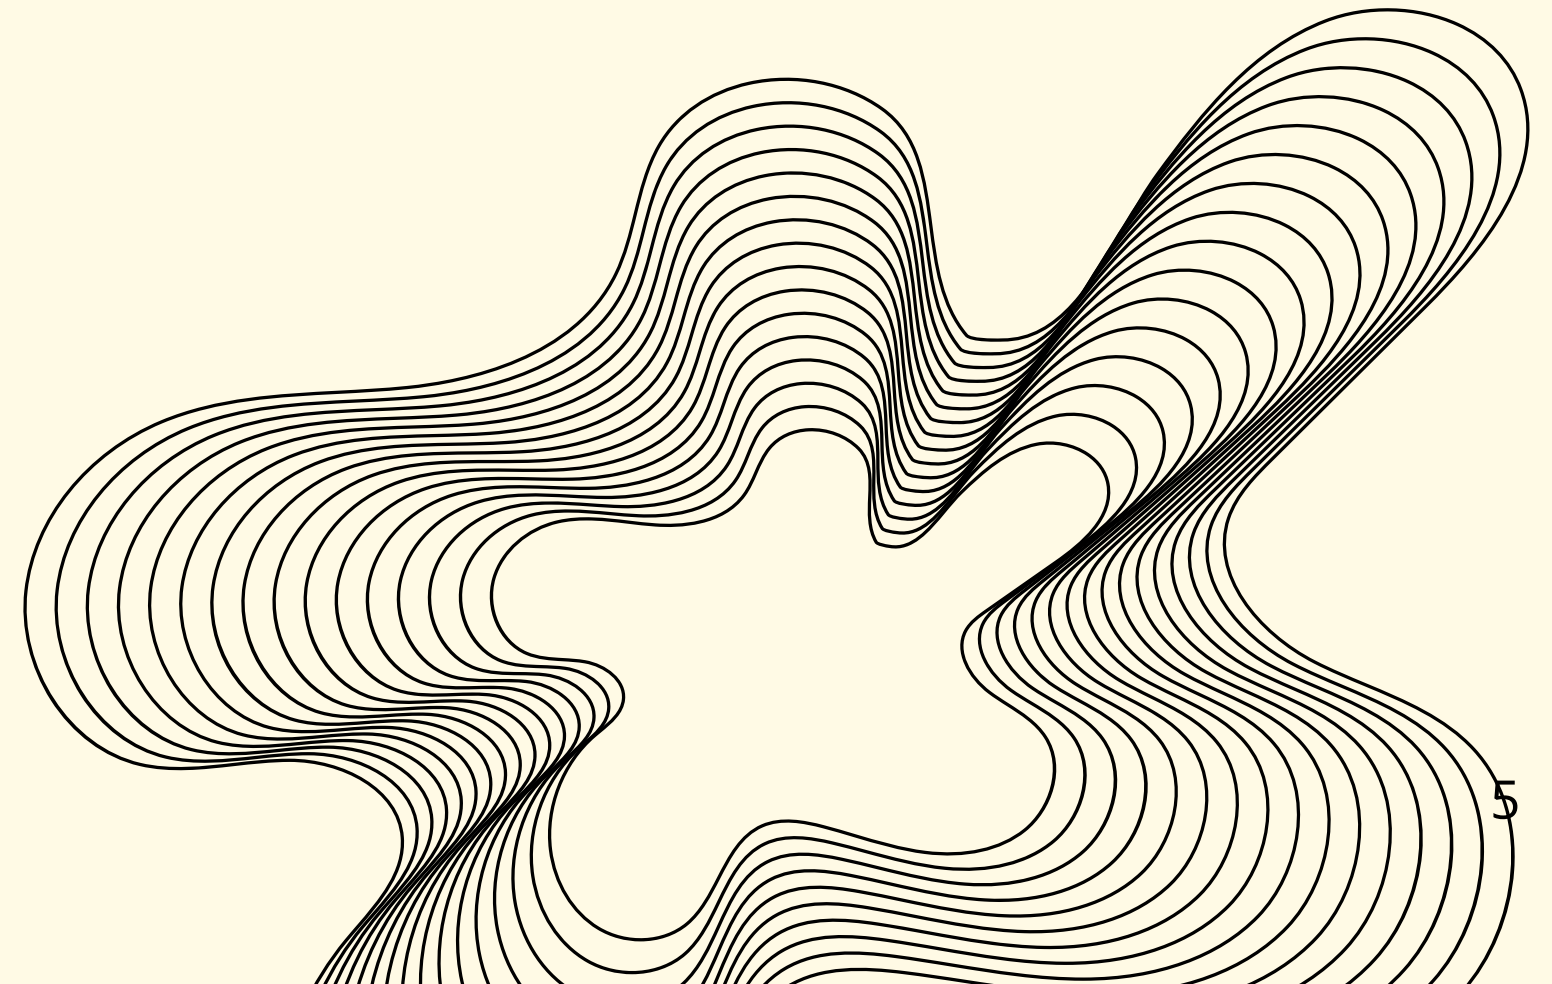

Reduce the number of deaths and people affected by disasters; Support least developed countries, through financial and technical assistance, in sustainable and resilient building

Goal 17. Partnership for The Goals

Mobilize additional financial resources for developing countries from multiple sources; Enhance regional and international cooperation on and access to science, technology and innovation

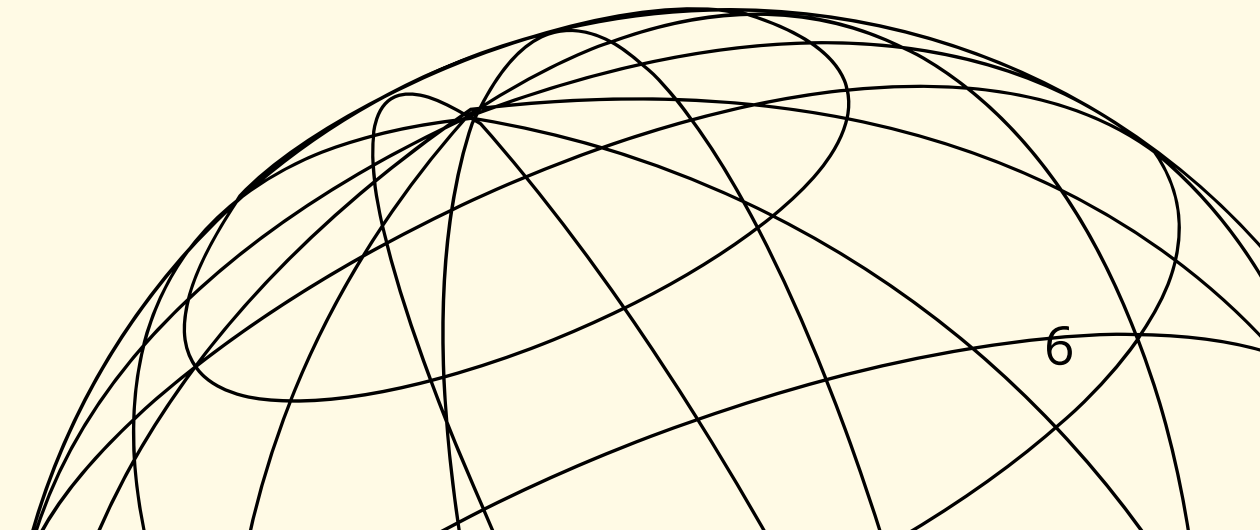

03 - STAKEHOLDERS INVOLVED (INTEREST GROUPS)

- **Affected population**
- **Government**
- **NGOs (human rights, migration, environmental)**
- **International organisations**
- **Neighbouring countries**
- **Businesses**
- **Media**

04 - WHAT HAVE BEEN DONE

- **Literature review of different definitions**
 - climate change
 - environmental migration
 - climate migration
- **3 cases: Canada, Mexico, Zambia**
 - policies on immigration
 - immediate actions
 - budget put into adaptation and mitigation
 - criticism

05 - REQUIREMENTS TO BE FULFILLED (ASPECTS TO BE TAKEN INTO ACCOUNT)

- **Different levels of gravity of disasters**
- **Possible inequalities among the population**
- **Geographical and geopolitical position**
- **Different responses**
- **Loopholes in the jurisprudence**
- **Prevention may not always be possible**
- **Level of development**

06 - POSSIBLE SOLUTION(S)- NEXT STEPS TO DEVELOP IT- CALENDAR AND WORK PLAN.

- **Tool to evaluate and assess level of state protection of the citizen against climate change**
- **List of guidelines to implement in order to higher the level of protection**

Calendar :

- **Session 1 : Finish the analysis of states**
- **Session 2 : Creation of tool to assess the level of protection**
- **Session 3 : Guidelines list**
