Philadelphia

Dear Prof.,

I am in receipt of your est. letter of the 25th April and wish to thank you for same. I shall be very grateful for your kindly advising me of the conditions, on which I could borrow books from the Library of the American Mathematical Society, having heard that members of that Society are entitled to this privilege.

I shall also be very thankful for your kind advice, whether I can present papers to those Congresses, even if I am not present.

I hope to be excused and thanking you for all your kindness, beg to remain,

very truly yours:

F. Sunyer i Balaguer
