Prof. R.P.Boas Jr.
Providence

Dear Professor,

In conformity with your kind wish to be apprised about mathematical publications unknown to you, I have pleasure in sending you enclosed herewith a copy of one of my articles appearing in a collection which rarely publishes mathematical works and, consequently, will probably be unknown to you.

I also have pleasure in sending you enclosed herewith a Review of same in English, because the original was written in Catalan, an idiom spoken only by about 7.000.000 people in Iberian peninsula and, consequently, unknown, - in all probability -, to people associated with the Mathematical Reviews,

Trusting that it will meet with your kind approval, I wish to remain
yours sincerely:

F.Sunyer i Balaguer
