In my letter dated 20th July, I
made the following observation:
Remark ...

that was to be enclosed
at the end of my work "A
theorem" and, by error, it ap-
peared at the end of "Entire
functions", another work of mine.

Therefore, I should be very grate-
ful, could you make evident
this creation and also enclose
the remark I pointed to, in the
work "A theorem", when it is
published.

With anticipated thanks, I am
yours very truly

P. S. I have not received the se-
parated printings of "Entire".
