fundació FERRAN SUNYER I BALAGUER

American Association Advancement  
of Science

Gentlemen,

I have duly received your letter advising me of your very great kindness in accepting me as a member of the American Association Advancement of Science.

I should be very happy indeed to accept this favour, if I were in a position to remit you the annual quota, but present difficulties in getting permits to buy foreign exchange make this absolutely impossible for me.

Even for being able to remit the annual fees of the American Mathematical Society I had to enlist the services of a relative of mine in Mexico and I really do not wish to further abuse of his kindness.

If you can suggest me any manner of remitting you the said annual quota, I shall be very glad to accept your kind nomination.

UAB

i d'Enginyeries

Thanking you for your courtesy, I wish to remain

Very truly yours:

Ferran Sunyer Balaguer
