Dear Professor Kamthan,

I have received your letter of 6 inst. together with your revised paper "MEAN VALUES OF ENTIRE FUNCTIONS (II)". I have forwarded it on to "Revista Matematica Hispano Americana" and when they inform me as to publication I will let you know at once.

Your first paper which you sent me for publication in "Collectanea Math." has now appeared and you will soon receive the reprints.

Madrid has still not answered me with regard to your grant but I will write again and try to get something definite

yours sincerely
