Barcelona, 6th decembre 1960

Your ref: ONR:491:TLS:vs

Prof. Thomas L. Saaty
Washington

Dear Professor Saaty,

I have received your two letters of the 31th october and the 30th november. Some day ago I sent you by separate post as printed matter the reprintings of some of my papers, as you asked me to do.

I send you herewith a letter of Prof. Mandelbrojt in which he gives his opinion on my works. On the otter hand Prof. Boas lets me know he will be glad to inform favourably if the Office of Naval Research comes to consult him about my mathematical work. You may as well ask for advice Prof. Macintyre of University of Cincinnati who is well acquainted with my production.

In case it might be of interest I beg to tell you that Prof. Boas has asked me to act as a referree in the publication of several papers in the Proceedings of the American Mathematical Society, as can be ascertained in the vol. 7 nº 4 page 435 of the Notices of the American Mathematical Society.

I should appreciate it if you would kindly tell me if I am to send an application in order to try to get some support from the Office of Naval Research for my research work.

I should like to avail myself of this opportunity for pointing out that my full name being F. Sunyer Balaguer, the family name (as used in every other country) is SUNYER, whereas the name Balaguer is the name of my mother and is used in my country only as a compliment to the mother.

Thanking you in advance I beg to remain

Sincerely yours

F. Sunyer Balaguer
Calle Angel Guimera 66 pral. 2º
Barcelona - 17   Spain

(es copia)   November 19, 1960

    I am very much impressed by Professir F. Sunyer i Balaguer's
work in the Theory of Functions. I know his work very well, and
I find the results he has obtained of great importance and in-
terest. I know by the ~~quotati~~ quotations and conversations I
have had with other mathematicians that this opinion is partaken
by many other specialists in the field.

                S. Mandelbrojt
                Professor at the College de Fran-
                ce and
                The Rice University
