Aproximación de funciones holomorfas en un semifaja por sumas de exponenciales (Collectanea Math. vol. XV)

Sobre los puntos singulares de las funciones representadas por series de Dirichlet (It will be published in "Actas de la V Reunión anual de Matematicos españoles)

I am also preparing an extensive Memoir English containing all the results and proofs obtained during the researches supported by the mentioned contract. And besides I have continued on writing some of the chapters of a monograph in collaboration with Professor Mandelbrojt in which will appear much of the above indicated results,
