

Distinguished Professor Faculty.

Professor Bios, from Madrid University, told me you had asked him why I did not solicit from the American Fleet a contract to subvention my investigations.

When you came to Barcelona, I did not understand \* it was I who had to solicit it.

Therefore I entreat you to kindly suggest me, whom I must address myself to, and in what terms, - as to obtain that contract, that greatly interests me.

With anticipated thanks for your trouble, believe me, dear Professor,

yours always truly
