July 8, 1948

Professor F. Sunyer i Balaguer
Angel Guimera nº 3 pral. 2ª (Sarria)
Barcelona, SPAIN

Dear Professor Balaguer:

Your letter of June 21 has been referred to me from the New York office of the Society.

I am enclosing a blank which you may use in applying for membership in the American Mathematical Society. Since you will become a member under the reciprocity agreement with the French Mathematical Society, it is not necessary for you to be formally elected by the Council. As soon as your application is received, we will enter your name on our membership lists.

Annual dues for members joining under reciprocity agreements are $5.00. The Board of Trustees has voted to waive the usual initiation fee for such persons during the difficult financial situation abroad. There is an informal arrangement between the Treasurer of the French Mathematical Society and a member of our Society for the payment of dues. I suggest, therefore, that you get in touch with the Treasurer of the French Mathematical Society regarding the payment of your dues for the American Mathematical Society.

A subscription to Mathematical Reviews for a member of the American Mathematical Society is $6.50 per year.

With kind regards, I am

Sincerely yours,

J. R. Kline
Secretary
