Dear Professor Balaguer:

We have received your letter of January 5th with which you forwarded an abstract as well as the manuscript of your paper entitled "Values of entire functions represented by gap Dirichlet series".

We have placed your paper upon the program of the 466th meeting of the American Mathematical Society, to be held in New York City on February 24, 1951. We understand that you do not intend to attend the meeting in person and we have therefore arranged to have the paper read by title.

We have forwarded the manuscript of your paper to the editor of the Proceedings of the American Mathematical Society who will consider its suitability for publication. You may expect to hear directly from him.

Sincerely yours,

H. M. MacNeille
