Dear Dr. Sunyer i Balaguer:

In a recent number of Acta Scientiarum Mathematicarum, I have noticed a reference to a paper of yours for which I have not been able to find a review in Mathematical Reviews. It is the following:

F. Sunyer i Balaguer, Propiedades de las funciones enteras representadas por series de Taylor lagunares (orden finito), Semin. Math. de Barcelona, 2 (1949), fasc. 1, p.1-48.

In the past you have been kind enough to send us occasionally reprints of papers of yours which we have not ordinarily received. We should appreciate it very much if you would be willing to do this also in this case. However, it seems from the title of the journal that it is one which we ought to receive for review regularly. Would it be possible to make some arrangement to do this, either by subscription or by exchange?

Sincerely yours,

J. V. Wehausen
Executive Editor
