PROCEEDINGS OF THE AMERICAN MATHEMATICAL SOCIETY

Lunt Building, Northwestern University, Evanston, Illinois

I have received your manuscript... Some remarks on Q. I. Rahman's
paper "On entire functions defined by a Dirichlet series."
(I should prefer to use the shorter title marked
in red.)

R.P.B.

R. P. BOAS, JR.

If you still have reprints of your paper with Corominas,
condiciones para que una función infinitamente derivable sea un
polinomio, I should like very much to have one.
