Respected Professor,

Kindly accept my best regards. I shall be highly grateful to you if you kindly send me your most valuable reprints on Integral Functions (in particular, the off-prints on Integral Functions Represented by Dirichlet Series.) I would like to say that journals on Mathematics are, unfortunately, not available here. I shall be ever grateful to you for this great help from you. I may, if allowed, mention here that many other eminent persons, like Professor Mandelbrot, have helped me out in this connection. So I request you to kindly help me out and obliged. I shall be further thankful to you, if you kindly do it at your earliest.

with high regards

Respectfully Yours

P. K. Kamthan
