Respected Prof. Balaguer,

Kindly accept my best regards. Enclosed herewith please find a paper of mine entitled "Proximate order(R) of entire functions ". I request you to kindly examine it and if you consider it to be fit, kindly send it to the journal SEMINARIO MATEMATICO DE BARCELONA for the publication or to some other journal where English-written papers are published in Spain. In fact, I am interested to get it published somewhere in Spain. I hope you will kindly excuse me for the trouble given to you. Kindly oblige me by acknowledging the receipt of the paper. Finally, I hope to get your ^{valuable} comments at the earliest convenience. Kindly reply in English as I don't know French well.

Thanking you,

With best regards,

Yours sincerely

(P. Kr. Kamthan)
