Respected Professor Balaguer

Kindly accept my best regards. I received your kind letter of Aug. 23 and feel very obliged to you for taking much trouble and giving your valuable time in going through my paper "Means & Values of entire functions (II)". I ~~had~~ understand that the paper is appealing to you in toto (principle) and now I am looking forward when it is finally accepted by you after making yourself sure about some small error in Th. 2. In the mean while, I would check it and in case I find something, I shall let you know.

I have now joined Ramjas College, Delhi University, Delhi, so you kindly write to me, whenever possible, through this address c/o Deptt. of Maths.
