Professor F. Sunyer Balaguer
Angel Guimera 36, pral 2^a
Barcelona-17, Spain

Dear Professor Balaguer:

I hope you might have received my letter of September 12 together with my manuscript of the paper "The Derivatives of Meromorphic functions... Deficient Values" for its publication in *Collectanea Mathematica*. I hope you will kindly write to me about its publication and oblige.

I also thank you very much for your valuable suggestions and comments on the Mean Values of Dirichlet Series.

With kindest regards.

Yours sincerely,

P. K. Kamthan
Associate Professor
