10 April. 58.

Dear Professor Balaguer,

I was sorry you were not present at the Congress on Theory of functions at Helsinki last summer and hope to meet you in Edinburgh this August.

A cousin of mine visiting Madrid may perhaps have given you this message.

I have been discussing with various colleagues the idea of a phrase book for use at an international congress.

Many think it a good idea

but its preparation is not too  
easy. I have made a brief  
list and enclose copie in  
English & Swedish. If you  
are interested I should much  
appreciate further suggestions  
and a translation of the  
enclosed list into Spanish.

If you send your ~~further~~  
suggested additions in Spanish  
only I can easily get them  
translated into English. I  
expect to have available  
translations into a number  
of other languages.

I shall send you in another  
cover a copy of my lecture at  
Helsinki.

Yours Sincerely  
A. J. Macintyre
