FERRAN SUNYER I BALAGUER

Dear Professor Balaguer,

Many thanks for your letter
and the trouble with Dr. Ponting's
paper.

I have moved to a Research
Professorship at the University of
Cincinnati. My appointment is at
present for a year only but may
well be permanent. I hope to
send you a report about my
experiences here and that you
may find it of interest. The
authorities here are very generous
in arranging leave for foreign
travel so it may be that I shall
have the opportunity of meeting
you some time in the next few
years.

One of my colleagues here

Professor F. W. Rogers

is a keen student of Spanish
Language and Literature. He has
been extremely kind and helpful
to me and I would like to send
him some reminder of Spain. It
occurred to me that you might

be so kind as to select for him on my behalf either an elementary book on mathematics, or a book of short stories and post it to him. He teaches elementary mathematics to engineering students so that none of your own research papers would be of interest to him. I should be very pleased
