FUNDACIÓ FERRAN SUNYER I BALAGUER

Dear Professor Sunyer

I hope to send you in more detail a note about our recent correspondence on gap theorems quite soon.

Two other matters however now.

(i) A student of mine Lee Sugenoto who studies gap theorems and "complex Tauberian theorems" is to spend a year in Europe and should get to Giessen by October 1st. I should like him to call on you if it can be arranged. He will have his wife with him and must not spend too much money on travel. I wonder if there are any ships which carry passengers from New York or Boston to Barcelona. They cannot leave before the beginning of September. We are making enquiries here, but if it is easy for you to find out from shipping agents in Barcelona we

MOISTEN - LAP WELL

should be obliged. Also of course - could
it be convenient for you to meet them
towards the end of September.

② Professor Edrei ^{Dept. of Mathematics} of Syracuse University,
Syracuse 10, N.Y., U.S.A. has started
working on gap theorems. The Syracuse
would be a nice place for you to visit.

FIRST FOLD

I shall write Edrei suggesting he
considers giving you an invitation. Perhaps
you should send him copies of your
papers if you have not already
done so.

Yours Sincerely
A. J. Macintyre
