FUNDACIÓ FERRAN SUNYER I BALAGUER

Dear Professor Sunyer,

We are most grateful to you for your information about shipping. It would have been difficult to obtain it here.

Unfortunately since I wrote you both Mr. and Mrs. Suyemoto have suffered bereavement. Mr. Suyemoto has lost his father and his wife has lost her sister. They will have to travel to distant parts of the States as soon as their work here is finished, to deal with family business. There will be no time for them to travel by Spain on their way to Germany. I am extremely sorry that they will not meet you in September and also for the trouble you have ^{been} put to. I hope it will be possible for them to see you on their return trip.

I enclose a copy of my work on overconvergence on the lines indicated in our recent correspondence. I wonder if you would be able to publish it in Collectanea? It is clear that the method will not easily give the result contained in your recent letter. Perhaps this note of yours should be published by the American Math. Soc. I will get it copied out and let you have an exact copy. If you then agree I can submit the ms. to the editors which will save time.

Yours Sincerely,

A. J. Macintyre

p.s. I cannot yet provide page references to Polya.

The diagrams are probably not worth printing
