DEPARTMENT OF MATHEMATICS

July 9 1963

Dear Professor Sunyer,

I wonder if you would be interested in the enclosed thesis by my student Harold Muschenheim .

I should be pleased to have your opinion on the possibility of publishing some part of the thesis in Collectanea. I think it ought to be published under the joint names of Muschenheim and myself.

I have continued to be in poor health and have not attended any meetings for a long time. I hope someone will invite you over here but am unfortunately out of touch with politics of this nature.

We have near here Father James Alonzo formerly of Barcelona. He is to teach next year at Villa Madonna College and has been studying for a Ph.D at University of Cincinnati.

Best wishes

Yours Sincerely

A. J. Macintyre
