Professor F. Sunyer Balaguer  
Angel Guimera, 66  
Barcelona - 17, Spain

Dear Prof. Balaguer,

I was glad to receive your letter and have tried to get some information as to what might be done to support some of your research activities. The authorities would promise nothing until they have examined some of your work, and even then it may not be certain that things will work out as I very much would like to see them work out. I wonder if you could send me some reprints so that our competent people can judge the possibilities of support.

I had also indicated during my visit to you that you might try to obtain testimonial from Professor Boas whom you indicated was familiar with your research activity and some of your results. Any additional helpful information that you might have or can think of providing may also be helpful.

With kindest regards.

Sincerely yours

*Thomas L. Saaty*
