Dear Professor Balaguer,

I am writing to ask you if you have completed writing your proposal. I urge you to do so as soon as possible since Dr. Osserman who has taken interest in you will be leaving the Office of Naval Research.

A proposal does not mean that you should complete the work. Of course in order to support research one should know what the people supported will be investigating.

With best wishes.

Cordially yours,

Thomas L. Saaty
