Dear Dr. Sunyer:

Thank you for sending the quarterly report. I am happy to follow the progress of this interesting work.

The formal proposal for a renewal for the period 1 July 1965 to 30 June 1966 at \$2700 should be sent without delay.

The technical description of the future research need not be very long, as the reports we have here in our files indicate the general area and direction of your current interest.

With best regards.

Sincerely yours,

LEILA D. BRAM
