Dear Dr. Balaguer:

Thank you for sending the current reports on contract progress. They are approved as satisfactory and a copy of this letter to ONR London constitutes scientific approval in particular of the final report for N62558-4161.

As it is my understanding that you desire to continue this work, I would like to ask you to prepare a renewal proposal well in advance of the time of expiration of the current contract. We are planning the obligation of our current funds right now, and it would be highly advisable to submit the proposal to us immediately. I am preparing the justifications which must accompany my recommendation of the renewal, and I shall forward it for the necessary signatures just as soon as I receive your proposal.

I was glad to hear from Dr. Epstein in our London office that he is hoping to plan a visit to you sometime within the coming year. My visit to Europe was very brief this June and I may not have another opportunity to visit Spain before next summer.

With best wishes and appreciation for your continued contribution to our research program.

Sincerely yours,

LEILA D. BRAM
Mathematics Branch
