Dr. F. Sunyer Balaguer
Angel Guimera 66 pral.2^o
Barcelona 17, SPAIN

Dear Dr. Balaguer:

Thank you for keeping us informed of your research activities, and for the copies of reprints. We are very pleased with this contract from a scientific viewpoint.

Our own budgetary circumstances seem to have become more strict in the past year, especially with respect to European expenditures. I have with some considerable difficulty started once again the renewal for \$2,700 for the period 1967-1968. Could you please prepare as usual a proposal for this period?

May I extend my warmest personal good wishes to you and to your family for the new year, and thank you for your gracious greetings.

Sincerely yours,

LEILA D. BRAM
Head, Mathematics Branch
