Professor F.Sunyer Balaguer
Angel Guimera 36 pral. 2º
Barcelona - 17, Spain.

Dear Sir,

I am most grateful to you for your valuable comments on my paper, ON ENTIRE DIRICHLET SERIES OF INFINITE ORDER(II), communicated to me in your letter of 7 February 1966. I agree with you that the defects in the paper, kindly pointed out by you, should be removed. However, I do not wish to give you any trouble on this account. I shall go through my paper carefully, find out all the changes necessary as a consequence of the defect you have mentioned, and prepare a fresh manuscript which will be ready for publication.

Meanwhile, there is one point on which I should like to seek your advice. I think your remarks show that condition (8) of Theorem 1 B(in page 3 of my manuscript) can be omitted and that, in consequence, some minor changes may be necessary elsewhere. Am I right?.

Hoping that,before long, it will be convenient for you to devote some attention to this point.

I am,
Yours sincerely,

A.R. Reddy
