

## Multidisciplinary Repositories for Open Access Data

	 <a href="#">UAB</a>	 <a href="#">CERN</a> <a href="#">OpenAIRE</a>	 <a href="#">Digital Science</a> (Macmillan)	 <a href="#">IQSS (Harvard University)</a>	 <a href="#">NCSU</a>	 <a href="#">Elsevier</a>
<b>1. Thematic and geographical area</b>	Multidisciplinary UAB institutional repository	Multidisciplinary International	Multidisciplinary International	Multidisciplinary International	With emphasis on science and medicine International	Multidisciplinary International
<b>2. Type of data (software, images, raw data...)?</b>	All kind of formats (preferably open) and published documents: final research data, publications, gray literature, images, plain text ..	<a href="#">All kind of formats</a> and published documents: publications, grey literature, images and audio, plain text ...	<a href="#">All kind of formats</a> : figures, datasets, images and audio, grey literature, filesets ...	<a href="#">All kind of formats</a> Certain formats with specific functions (Stata, SPSS, R, Excel, CSV....)	<a href="#">All kind of formats</a> and with preference for open source formats	<a href="#">All kind of formats</a> : plain text, images and audio, PDF, HTML...
<b>3. Open, embargoed, restricted or closed data?</b>	Open Temporarily embargoed	Open Closed Restricted Embargoed <a href="#">(Policies)</a>	Open Closed (by default, until they are published) Embargoed Confidential Metadata-only <a href="#">+ information</a>	Open Restricted Closed (by default, until they are published)	Open <a href="#">Temporarily embargoed</a> (peer-reviewed articles)	Open Closed (by default, until they are published) Restricted <a href="#">Embargoed</a>
<b>4. Approximate size of the files to submit?</b>	Up to 25GB per dataset. For larger sizes, please contact with <a href="mailto:ddd.bib@uab.cat">ddd.bib@uab.cat</a>	Up to 50 GB per dataset. For larger sizes, please <a href="#">contact</a> them	Up to 5GB per file Up to 20GB of private space <a href="#">How to upload and publish your data</a>	No limits per dataset Up to 2,5GB per file Up to 1TB per researcher	Up to 300GB per dataset. For larger sizes, please contact with <a href="mailto:help@datadryad.org">help@datadryad.org</a>	Up to 10GB per dataset. Up to 100GB if the researcher's institution subscribes Mendeley Data

<b>5. Licenses used to spread the data?</b>	<a href="#">CC0</a> . Can be changed by another CC	Variety of licenses although they recommend open licenses. The description of the data is under <a href="#">CC0</a>	- <a href="#">CC0</a> for data ( <i>metadata &amp; datasets</i> ) - <a href="#">CC-BY</a> for non data (audio, papers....) <a href="#">More</a>	By default <a href="#">CC0</a> , but it may be changed	<a href="#">CC0</a>	Allows a variety of licenses : CC0, CC-BY, CC-BY-NC for data For software: MIT, Apache 2.0...
<b>6. Persistent identifier</b>	URI, DOI	DOI	DOI	DOI	DOI	DOI
<b>7. Conditions for depositing or removing content</b>	To deposit content: UAB community with ORCID and create a Readme file ( <a href="#">template</a> ). To remove content, contact with <a href="mailto:ddd.bib@uab.cat">ddd.bib@uab.cat</a>	It is allowed to <a href="#">withdraw</a> the data explaining the reason. DOI and URL will be retained	Private data can be <a href="#">deleted</a> . To delete a public item you should <a href="#">contact</a> them	Allows to delete datasets and files even though they have already been published	ORCID and a Readme file are required. Data can be deleted only in <a href="#">specific cases</a> by contacting <a href="mailto:help@datadryad.org">help@datadryad.org</a>	- <a href="#">Data requirements</a> -It is allowed to <a href="#">remove</a> the data before publishing. Once published, <a href="#">contact</a> with Mendeley
<b>8. Cost</b>	Free of charge for the UAB community	Free. But by paying, it is possible to have more space ( <a href="#">FAQS</a> )	Free up to a certain size: 5GB for individual files, 20GB of private space, unlimited public space. For more space, you should <a href="#">contact</a> them. <a href="#">How to upload</a> and <a href="#">Account limits</a>	Free	120 \$ for a dataset (up to 50GB) <a href="#">How much it cost?</a>	Free. It's not rule out that in the future it have to be pay if certain limits are exceeded
<b>9. Data linked to publications</b>	It allows to add links to related documents	It allows to add links to related documents	It allows to add links to the full text or related documents	It allows to add links to related documents	Often the data are associated with a research paper, published or in publication process	It use <a href="#">Scholix</a> to <a href="#">link datasets to published articles</a>
<b>10. Preservation</b>	<a href="#">Digital preservation policy</a> (in Catalan and Spanish)	Data stored at <a href="#">CERN Data Center</a>	<a href="#">Preservation</a>	<a href="#">Harvard Dataverse Preservation Policy</a>	Data stored at <a href="#">Merritt Repository Preservation</a>	Data stored at <a href="#">Amazon S3</a> and <a href="#">DANS</a> <a href="#">How is data stored?</a>
<b>11. Document versions</b>	It allows to have different versions of the final files	It allows to have different versions of a file ( <a href="#">DOI versioning</a> )	Allows <a href="#">different versions</a> of a file already published	It allows to have <a href="#">different versions</a> of a file	It allows to have <a href="#">different versions</a> of a file	It allows to compare different versions of a file
<b>12. Meets the requirements of European grants?</b>	Data Repository recognition by OpenAIRE	Recommended for European projects. Link H2020 research with OpenAIRE automatically	No information	Exports compatible with OpenAIRE	No information	Published dataset metadata is aggregated to l' <a href="#">OpenAIRE</a> portal

<b>13. More information (URL)</b>	<a href="#">UAB Digital Repository of Documents</a>	<b>FAQS</b> <a href="#">Policies</a> <a href="#">Features</a> <a href="#">Terms of use</a> <a href="#">Blog</a> <a href="#">About</a>	<b>Knowledge (FAQS...)</b> <b>Features</b> <a href="#">Blog</a> <a href="#">Tools</a> <a href="#">About</a>	<b>User guide (general Dataverse)</b> <a href="#">About (general)</a> <a href="#">Harvard support Demo (Harvard)</a> <a href="#">Blog</a>	<b>FAQS</b> <b>Terms of service</b> <a href="#">Blog</a>	<b>FAQS</b> <a href="#">Terms of use</a>
<b>10. Others</b>	<ul style="list-style-type: none"> <li>- Download stats</li> <li>- Public data is seen in Google Scholar and other research collectors (CORE, BASE....)</li> <li>- Export citations to bibliographic managers and social networks</li> <li>- Perpetual availability of published data</li> </ul>	<ul style="list-style-type: none"> <li>- <a href="#">Usage stats</a></li> <li>- <a href="#">Show citations</a> received</li> <li>- Integration with ORCID and GitHub</li> <li>- Public data is seen in <a href="#">Google Dataset Search</a></li> <li>- Collaborative platforms (<i>Community collections</i>)</li> <li>- Allows you to export citations to bibliographic managers and social networks</li> <li>- <a href="#">Partnership</a> with Dryad</li> </ul>	<ul style="list-style-type: none"> <li>- Integration with <a href="#">ORCID</a>, <a href="#">GitHub</a> i <a href="#">Dimensions</a> (funding)</li> <li>- <a href="#">Collaborative spaces</a></li> <li>- Statistics of downloads</li> <li>- The public data is available at Google Scholar and <a href="#">Google Dataset Search</a></li> <li>- Allows adding to your personal profile social networks links and links to your publications</li> <li>- Allows you to export citations to bibliographic managers and social networks</li> <li>- It allows to create <a href="#">collections</a> with a common theme</li> </ul>	<ul style="list-style-type: none"> <li>- Application of open source (institutions and researchers can create their own Dataverse)</li> <li>- Integration with <a href="#">ORCID</a>, <a href="#">HitHub</a> and <a href="#">Google</a></li> <li>- Allows you to obtain the citation in XML, RIS or BibTeX format</li> <li>- Allows you to share a set of data in social networks</li> <li>- It allows to organize the files in folders and subfolders</li> </ul>	<ul style="list-style-type: none"> <li>- Integration with ORCID</li> <li>- Download stats</li> <li>- Allows you to obtain the citation in RIS or BibTeX. And to share it in social networks</li> <li>- Searchable in WoS Data Citation Index, Scopus and Google Dataset Search</li> <li>- The main language of the data must be English</li> <li>- <a href="#">Partnership</a> with Zenodo</li> <li>- It has implemented the <a href="#">Make Data Count</a> recommendations</li> </ul>	<ul style="list-style-type: none"> <li>- The incorporation of files is very simple (just drag them)</li> <li>- Integration with <a href="#">Plotly</a>, which allows graphical visualization of worksheets</li> <li>- It allows to organize the files in folders and subfolders</li> <li>- <a href="#">Ownership and control of data</a></li> <li>- They have various tools for affiliated institutions</li> </ul>

More information in the list of thematic repositories: <http://www.re3data.org>

Note: Developed from a working document by the support group to research at CSUC

June 2021 edition

Digital version: [ddd.uab.cat/record/150829](http://ddd.uab.cat/record/150829)
