Settings ÷

On the Settings page you can change the language, select the button to add articles, and choose the number of results per page.

Bibliometric indicators	provided by	Google Scholar:
Articles:		v

- <u>Total Number of citations</u> from the last 5 years
- <u>il0 index</u>: articles with at least 10 citations

Publications:

- <u>h5 index</u>: h index for articles published in the last 5 years
- <u>h5 median</u>: median of citations per article belonging to the h5 index

Authors:

 <u>h index</u>: number of articles by an author in relation to the citations received. h9 index means that at least 9 articles have received 9 or more citations

RECOMMENDATIONS

7ollow other researchers porfiles and create alerts to receive notifications from articles of your area of interest.

Make you profile public to: - Create alerts and receive email notifications when your publications receive new citations.

- Increase your visibility and improve your web positioning.

Keep your profile updated. In case of common names, avoid automatic updates. 17
