What has 2017 been like for Unibail-Rodamco?

It has been a truly outstanding year for the Group! We have exceeded the recurring EPS guidance announced at the beginning of the year, and have significantly expanded our footprint across Europe, with 5 project deliveries during the last months of 2017. This includes Wroclavia, a new shopping centre in Poland, the redevelopment of Glòries in Spain and the extension and renovation of Parly 2 and Carré Sénart in France and Centrum Chodov in the Czech Republic. We also laid the first stone of the office building tower Trinity in Paris-La Défense, celebrated the ground-breaking ceremony of the Überseequartier project in Hamburg and inaugurated the Paris Convention Centre, Europe's largest international conference venue. Unibail-Rodamco is very well positioned to deliver on its growth strategy. The high point of an incredibly successful 12 months was the announcement in December of the agreement to acquire Westfield Corporation. The Group is about to embark on a very exciting new chapter. Unibail-Rodamco and Westfield are a perfect match: we share the same vision of retail. The transaction is a unique opportunity that builds on Unibail-Rodamco's established leadership in Europe, on Westfield's development and investment track record and know-how and on its famous brand. Together,

CHRISTOPHE CUVILLIER

CEO & Chairman
of the Management Board

“Unibail-Rodamco

we will showcase an unparalleled portfolio of iconic shopping destinations offering unique customer experiences and exceptional services. With the largest development pipeline in the industry (€13 Bn), we will deploy our vision of the future of retail and offices in 13 countries. The proposed transaction is based on a solid strategic and economic rationale, which will create significant value for the shareholders of both companies. As the world's premier global developer and operator of flagship shopping destinations, the new Group will become a must-have partner for international retailers and brands across Europe and select markets in the United States.

How would you characterise the past financial year?

2017 has been a year of exceptional achievements for the Group. Recurring EPS reached €12.05, an increase of +7.2% from 2016. Like-for-like net rental income increased by +4.3% in the shopping centre division and +13.5% in the office division. The average cost of debt reached an all-time low of 1.4%. 2017 also saw strong operating performance with a +3.7% increase in tenant sales, particularly driven by strong performances in France, Central Europe and the Nordics.

With the Group about to take on this new dimension, what are the motors for its success?

Our strategy of concentration, differentiation and innovation has enabled us to increase our leadership, by further focusing on prime properties in the most prosperous catchment areas and continuously improving our assets through redesigning, retenanting and remarketing.

In 2017, we further committed to innovation, with a particular focus on digitalisation. The future of retail is “connected retail”, with physical and online shopping working seamlessly hand in hand.

In just one year, the Group signed up almost +1.8 million new customers to its loyalty programme, reaching a total of 4.2 million members. 85% of these new loyalty card holders came through digital

channels. 7.6 million people now follow our centres on social networks, 53 million visited our websites in 2017, and an average of 235,000 users connect to our apps every month, thanks to innovative mobile services. Our exclusive Europe-wide partnership with Niantic Lab and the Pokémon company for Pokémon GO illustrates the potential of digitalisation to boost footfall. In 2017, among the numerous Pokémon events that took place in our shopping centres, the 7 Safari Zone events alone resulted in exponential growth in the number of our loyalty card holders. Our commitment to innovation is further embodied by our start-up accelerator, UR Link. To date, 19 start-ups have been accepted into this open innovation programme, which, for the first time, took on an international dimension with its launch in Germany.

How does the Group stand out in the industry?

We aim to offer our visitors both the most desirable international brands and the best local champions. In 2017, 223 leases were signed with International Premium Retailers, an increase of +13.3% vs 2016. This is the outcome of retenuing efforts that we have led and amplified for several years now. At the same time, we added new destinations to our portfolio. The Group now offers 13 Dining Experiences™ in its shopping centres following the inauguration of Wroclavia and Arkadia. We inaugurated the Group's fourth Designer Gallery™ in Centrum Chodov and a second "Family Experience" in Centrum Černý Most. These new destinations are distinctive features that allow us to stand out in the industry.

What was the year like for the Office division?

2017 was a record leasing year for the Office division. Like-for-like NRI for offices grew by a record 15.9% in France. More than 72,000 m² have been let in our standing assets, with Orange in Les Villages in La Défense and significant relettings signed with Marsh in Tour Ariane and SNCF in CNIT.

Capital 8 is now fully let. We have also entered into exclusive negotiations with Nestlé for the preletting of the ca. 45,000 m² Shift building in the Paris region. Building permits have been obtained for Sisters in La Défense and Triangle at Porte de Versailles, and the first stone has been laid for Trinity, a 33-floor project that breaks new ground with its innovative and sustainable design.

And in the Convention & Exhibition division?

We inaugurated in November the new Paris Convention Centre at Paris Expo Porte de Versailles, the biggest of its kind in Europe. With this new venue, Paris will be able to host the largest international congresses, and thus reinforce its position as the world's favourite place for congresses.

One year after the launch of "Better Places 2030", how do you measure your progress?

In 2017, the Group moved one step closer to the long term objective of reducing by -50% its carbon footprint by 2030. Our "Better Places 2030" CSR strategy addresses the main challenges facing commercial real estate: moving toward a low-carbon economy, anticipating new modes of sustainable mobility, fully integrating the Group's business activities with the local communities, and engaging all of the Group's teams and stakeholders. In 2017, a carbon assessment methodology for construction was defined and applied to all active development projects at design stage; 146 partnerships were signed with tenants to use LED lighting, accounting for 15.6% of the total retail GLA, and all the Group's regions are now supplied with Green Electricity. We have also made significant progress in encouraging sustainable modes of transport. 96% of the Group's standing assets are now equipped with electrical vehicle charging spaces and next generation charging stations have been installed in six pilot assets. Our employees are equally committed to the Group's CSR objectives. They actively engaged in *UR Involved!*, the Group's initiative for social actions,

“The new Group will become a must-have partner for global retailers and brands across Europe and select markets in the United States.”

through the Solidarity Days and UR for Jobs programmes. These aim to foster employment of disadvantaged youth by tenants and suppliers of our shopping centres. 719 of our employees volunteered for one of these programmes, resulting in the hiring of 250 young people, while more than 3,000 were supported.

What was the overall driving force that contributed to such an outstanding year?

It was these same people, our employees, who made it happen. In 2017 we saw the extent to which collective power binds us together and drives the Group forward. On many occasions this year, we had the opportunity to see the concrete results of their energy and creativity: successful inaugurations, the launch of ambitious projects, and the preparation and announcement of the acquisition of Westfield are the most obvious illustrations of their dedication. The Management Board and I are extremely proud of their achievements.

THE MANAGEMENT BOARD

THE MANAGEMENT BOARD

The Management Board (MB) is chaired by Christophe Cuvillier. The MB's duties include developing and carrying out the Group's strategy within the risk profile approved by the Supervisory Board, effectively structuring and staffing the organisation,

applying consistently the principles of sustainability to operations and developments, and achieving and properly reporting on financial targets and results. The MB operates under its own Charter and is overseen by the Supervisory Board.

This has been an exceptional year in the history of Unibail-Rodamco, with continued growth leading to long-term value creation, and the opening of a whole new strategic horizon with the proposed acquisition of Westfield.

The Supervisory Board was pleased with another year of results which exceeded market guidance, and showed solid operational growth. It reflected the quality of our assets, and the strength of the Group's strategy, continuously driving value for our customers and for Unibail-Rodamco shareholders and stakeholders.

There has been solid progress on the "Better Places 2030" strategy, with concrete targets set and met for energy efficiency, for the broad sustainability agenda across the Unibail-Rodamco asset base, and for diversity in hiring and promotions.

COLIN DYER

Chairman of the Supervisory Board

“The proposed acquisition will add tremendous scope for further growth.”

The Supervisory Board reviewed progress against these plans at each meeting. Unibail-Rodamco is working to integrate data gathering and digital business into the company to exploit the benefits that new technology can bring to shopping centre operations, to our retailers, and to our customers.

The Group's long-term international progress continued, with internal mobility and external hiring programs. Major investments in our centres saw openings and extensions in Spain, Poland, the Czech Republic, and France, strengthening our foundation for growth in the coming years. The €7.9 Bn pipeline will ensure our medium-term growth.

Our international development was further boosted with the announcement of the acquisition project for Westfield Corporation, the culmination of careful planning and periodic discussion with Westfield. Throughout the process, the Supervisory Board closely monitored the development of management's thinking, and its excellent, detailed evaluation work. We supported the proposal unanimously, in the best interests of Unibail-Rodamco shareholders and our broader stakeholders.

The acquisition will add tremendous scope for further growth and strategic development well into the next decade. We look forward to a successful closing later this year, and to welcoming members of the Westfield board, subject to shareholder approval, into our Supervisory Board.

I would like to pay tribute to my predecessor, Rob ter Haar, Chairman for six years, during which the company set in motion many of the plans and achievements I have described. In the course of the year, Philippe Collombel, Roderick Munsters and I were all appointed to the Supervisory Board. Our first year has confirmed our impressions of an excellent company, with top quality assets and outstanding management, with a strong ethical and commercial compass. They have a clear strategic direction and a relentless commitment to improve the asset base as well as drive continued high single-digit medium-term earnings growth. I am personally delighted to be able to play a part in the progress of Unibail-Rodamco in the coming years.

FIRST STONE FOR TRINITY

After two years of preliminary work, Unibail-Rodamco laid the first brick of Trinity tower. Located in the heart of the business district of La Défense, this 140 m tower breaks new ground with its innovative and sustainable design. The 33-floor building will offer 45,000 m² of offices, 4,000 m² of services and 3,500 m² of green spaces. The tower showcases The New Art of Working™, where contemporary modes of collaboration are designed to encourage employee engagement. With state-of-the-art features including flexible modules bathed in abundant daylight, creativity rooms and a wellness centre with panoramic views, Trinity will provide employees with a working environment that is as enjoyable as it is functional.

Workwell: fostering The New Art of Working™

The Group signed a partnership with Never Eat Alone to launch Workwell in its new office buildings. This smartphone app aims to help companies improve the quality of life in their workplaces. It provides access to all services, such as reservation of restaurants or sports classes, car sharing and a concierge.

A dynamic investment cycle

The office division is core to the Group's value creation strategy. It develops or refurbishes new prime assets in the Paris region, demonstrating excellence in architecture and sustainability. In 2017 the Group benefitted from favourable market conditions for the disposal of So Ouest Plaza. Building permits were obtained for the Sisters and Triangle developments, paving the way for future value creation.

“Active portfolio management is the cornerstone of our business. We constantly develop existing assets, boosting performance and increasing attractiveness. At the same time, new developments keep us firmly focused on the future.”

SET TO HOST THE LARGEST EVENTS IN EUROPE

Viparis inaugurated the Paris Convention Centre at Paris Expo Porte de Versailles, the largest of its kind in Europe. Located in Pavilion 7 and interconnected with 44,000 m² of meeting and exhibition spaces, the 28,000 m² Paris Convention Centre is fully modular, providing up to 400 room configurations. Designed by Valode & Pistre, the plenary hall bathes in natural light and can seat up to 5,200 guests, making it the largest in Europe. This new venue will contribute to reinforcing Paris' leading position as the world's top destination for large international conferences.

Paris was selected to host the 2024 Olympic Games and Viparis, leader in its industry, will play a key role in the event. Competitions will be held at Paris Expo Porte de Versailles, while Parc des Expositions Paris Le Bourget will welcome journalists from around the world, hosting the International Press Centre. This confirms Viparis' role as the preferred destination for large-scale international events.

DEVELOPMENT PIPELINE

OLIVIER BOSSARD
Chief Development Officer

“In an ever-changing environment, we must innovate, collaborate and move forward with conviction to create our future projects. We involve stakeholders and make these projects increasingly ambitious, while simultaneously responding to territories’ needs. Single-use buildings that were once the norm, have now become the exception. The most impressive of the Group’s projects, such as Überseequartier in Hamburg, are becoming large-scale urban projects, where we act as a conductor to lead a team of creative and business partners. We aim to invent neighbourhoods that pay respect to their history, and which address the challenges of the cities of tomorrow.”

Where Hamburg meets the world

Echoing the Hamburg way of life, **Überseequartier** will be the heart of this new riverside and lifestyle district. It offers a vibrant place for people to gather and experience culture, leisure, shopping and dining. The buildings creating this "seaside" district are imagined by some of the greatest European architects, like Christian de Portzamparc and UN Studio, and will be linked by an iconic glass roof designed by Werner Sobek. This addition to Hafencity is aligned with the bold architecture of the new landmark, the Elbphilharmonie.
