Dear ----,
I am writing to you
to ask for your help in our research.

I take part in the EASIT project.
This is a project about making content easy to understand through Easy-to-Read Language and Plain Language.

In EASIT, we will create materials
to train experts on making content easy to understand.

To create these materials
we need to know the point of view of experts.

I am contacting you
because you are an expert.

If you wish,
you can help us
and answer the questions we have prepared.
We would be very grateful.

If you are interested,
you can access our questionnaire online here. [ADD LINK WHEN AVAILABLE]

If you prefer to receive the questionnaire
in a different format,
let me know.

Many thanks for your help.
THE QUESTIONNAIRE

This questionnaire is part of the working activities of the European project EASIT (Easy Access for Social Inclusion Training). EASIT is designed to produce a curriculum and training materials for professionals who can create easy-to-understand contents, especially in audiovisual media (e.g., news, films with subtitles, etc.).

In this questionnaire, when we use the expression “easy to understand” we are referring to both Easy-to-Read Language and Plain Language.

This questionnaire has been created keeping in mind the principles of Plain Language and the needs of the target group of this questionnaire. However, if you think you might need support for filling it in, feel free to do so with a support person. If you prefer to receive a paper version of the questionnaire, please feel free to ask for one to the person who invited you to compile it.

Completing the questionnaire should take approximately 20 minutes. The questionnaire is divided into 4 sections. Section 1 focuses on your demographic profile. Section 2 will enquire about your educational background and previous training. Section 3 enquires about your current activity. Section 4 is centered on the skills necessary to become an easy-to-understand content expert. All sections include multiple-choice questions, and they have additional space for you to include comments on anything you consider of importance and which we have not addressed.

Your time and contribution to our research are very important. We would like to thank you for accepting to participate as a respondent.
