Dear Professor Millás:

Thank you for your letter of October 23. I am glad to hear that the thesis of your son will soon be completed and ready for publication. I would suggest that he get in touch directly with Mr. G. J. Toomer, Corpus Christi College, Oxford. Mr. Toomer has completed a critical text of the three Latin MSS of Ibn al-Mutannā and he also has found interesting material about the history of these MSS. We have prepared together a commentary concerning the astronomical methods. Mr. Toomer is very cooperative and eager to help in order to obtain a definitive edition of this interesting treatise.

It is very kind of you to offer us your transcription of the Parma MS. Mr. Goldstein has almost completed his transcription and it will be very useful to him to compare it with yours. He is making also good progress with the Bodleian MS and I hope the whole work will be completed within one year.

With my best personal regards,

Sincerely yours,

O. Neugebauer
