December 7, 1946

Prof. José Millas Vallicrosa  
Via Cayetana 141, 1°  
Barcelona, Spain

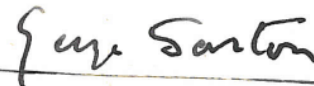

My dear friend and colleague:

I hope this letter will find you and the Señora in good health. Please accept my best wishes for Xmas and the New Year 1947. May that year bring the world a modicum of peace and charity.

The Tractat d'astrologia of Mestre Pere Gilbert i Dalman Planas edited by Massó i Torrents was published in Barcelona 1890. No copy of it is available here. Would it still be possible to obtain one in Barcelona?

I hope the copy of my vol. I mailed to you ages ago has finally reached you. The printing of learned books has become exceedingly difficult and slow in this country. Nos. 105 and 106 completing volume 36 of Isis appeared only on Dec. 5. My vol. III progresses with incredible slowness, but we must be patient. Laboremus.

Yours devotedly,

George Sarton
