Professor José Ma. Millás
Universidad de Barcelona
Facultad de Filosofía y Letras
Barcelona, Spain

My dear friend:

Your article La nova geometria de Ramon Lull finally arrived last Monday! Your letter announcing the mailing of it was dated April 26. The MS. took thus two months and a half to reach me. I hope that in the meanwhile you have received vol. 1 of my Introduction; if not, I would advise you to send an inquiry to the Madrid office of international exchanges (Ministerio de educación nacional. Cambio internacional). The mail which brought your MS. also brought a copy of Don Migel's latest work Glosario de voces romances. It had been mailed to me from Madrid ages ago.

I'll have to work the whole summer to complete the very elaborate indexes of my vol. 3, but that is for a scholar the best form of charity to others.

Please give my respect to Señora Millas and accept for yourself my most cordial greetings.

GS/FS

My dear friend:

Your article in the new issue of *Estudios de Gramática de Ramón Llull* finally arrived last Monday! Your letter announcing the mailing of it was dated April 26. The MS. took two months and a half to reach me. I hope that in the meanwhile you have received Vol. 1 of my *Industries*; you would advise me if you have. (Ministerio de Educación Nacional, Gaceta Internacional). The article which brought you the MS. also brought a copy of *Los versos romances* and *Los versos romances* also.

I have to work the whole summer as compared with the indexes of my Vol. 2 but that is the form of charity to me. I give my respect to Mrs. and hope to give you my personal greetings.
