Out of the Ordinary is being created in rural Ireland, on Inis Meáin, and in Tallaght and South County Dublin by groups of people who are turning experiences that matter to them into an opera. Director Jo Mangan and composer Finola Merivale have been working with them since last year. And the cream of Irish virtual reality expertise will also be on hand to help everyone realise their vision and transform it into a unique virtual reality experience. A world of opera you can carry around on your head.

Finola Merivale “*Oblivious Oblivion*, a macabre, apocalyptic global warming tableau...It was the showstopper of the night.”
