A	ASYLUM APPLICATIONS SUBMITTED	1.228	1.222	1.332	678	-17,96%								
<b>Notes</b>														
1 Where possible, a distinction has been made between cases closed on substantive grounds (F) and cases closed/rejected on other grounds (E). If this distinction was not available, cases closed on other grounds are generally included in this category (D).														
2 This category refers to cases which are closed/rejected on the basis of non-substantive grounds, because the applicant has <i>disappeared</i> , died, etc. Cases closed on the basis of "pre-screening" are thus not included. If figures on otherwise closed cases are not separately reported, they are generally included in the rejections (D).														
3 Figures based on B, C i D.														
4 Pending cases refers to asylum applications which have been submitted, but not yet decided at the end of each year.														
5 Those countries are the EU countries (15), 7 Central European Candidates States (Bulgaria, Czech Republic, Hungary, Romania, Slovakia, Slovenia and Poland) , and the United States of America, Canada, Australia, Switzerland, Norway, Liechtenstein and New country

Source: Governments; compiled by UNHCR.

## Notes

1. Germany. The data refer to *first* applications only, excluding *repeat* asylum applications
2. United Kingdom. Dependents included.
3. USA. Source: Immigration and Naturalisation Service. 1999 refers to US Fiscal Year (Oct.-Sep.); 2000 and 2001 refer to calendar year. In this table, the number of asylum applicants has been estimated by UNHCR on the basis of 1.4 asylum applicants per application. In all following tables, the number of cases (applications) has been reflected for the US.
4. Canada. Source: Citizenship and Immigration Canada.
5. Excluding 3,434 applications submitted under the Humanitarian Evaluation Programme in 1999.
6. Austria. The 2001 figure includes 5,622 persons who applied for asylum abroad, 95% of whom were Afghan citizens. Few of those who apply for asylum abroad are granted entry. Separate figures for 1999 and 2000 are not available, but believed to be significantly smaller.
7. Denmark. Data refer to *gross application figures*, that is, they cover all persons applying for asylum in Denmark including persons who are returned to a safe third country or processed under the Dublin procedure. In past years, the so-called *net* or *processing figures* were reflected. In 1999, the total *processing figure* was 6,467 applications, constituting 52% of the *gross application* figure. In 2000, the total *processing figure* was 10,347 applications, constituting 85% of the *gross application* figure.
8. Figures since September 2001 exclude persons who arrived offshore or are being processed on Manus Island, Papua New Guinea or Nauru.
9. Italy. 2000 and 2001 figures are provisional, subject to change. For 1999, data on the origin is available on 12,146 applications only.
10. Western Europe: EU member countries plus Liechtenstein, Norway and Switzerland.
11. Central Europe: Bulgaria, Czech Republic, Hungary, Romania, Slovakia, Slovenia.
12. Europe: All European countries listed in this table.
13. Non-Europe: Australia, Canada, New Zealand, United States.
