

Validation of *Goniomitrium seroi* Casas

Creu Casas

Botànica. Facultat de Ciències. Universitat Autònoma de Barcelona. 08193 Bellaterra

Goniomitrium seroi was described in Casas 1972. The name, however, is not valid because a single element was not cited as a holotype (Crosby et al. 1992, article 37.3 of the International Code of Botanical Nomenclature, Greuter 1988). I correct the oversight here:

Goniomitrium seroi Casas in Casas, Acta Phytotaxonomica Barcinonensia 10:13. 1972. Holotype: Spain, Almería, Sierra del Cabo de Gata, prope Cortijo del Monsul, UTM. 31SWF76, rupibus volcanis, C. Casas, 23 Mars 1972, BCB 2397.
