WHY EASIT?

Written content can be difficult to understand, but there are ways to make it easier to understand (Easy-to-Read, Plain Language).

What about audiovisual media? And written content on audiovisual media? Can existing access services (subtitles, audio description) be made easier to understand?

AIM

EASIT will define the profile of the experts who produce easy-to-understand content, with a focus on audiovisual media, and will created open-access training materials.

RESULTS SEPTEMBER 2018-OCTOBER 2019

1. Survey on Easy-to-Understand training and practice: 128 participants all over Europe.
2. Focus groups and interviews on how easy-to-understand subtitles, audio descriptions and audiovisual news could be produced.

Reports for the three previous outputs: pagines.uab.cat/easit/ (under Outputs 1-2-3-).

NEXT STEPS NOVEMBER 2019-AUGUST 2021

4. Curriculum design. EASIT will design a university curriculum and a curriculum for a MOOC.
5. Open educational resources development. EASIT will create training materials which will be free and in different languages.
6. Certification. EASIT will analyse how other projects certify experts and will make a proposal for the EASIT project.
