A history... linking to the past

Why going to the past?: Taking a sociohistorical positioning on Case Analysis

- Aesthetical arguments: Recognizing the work of others
- Epistemological arguments: Developing better understandings
- Political arguments: Generating social resistance

A history... linking to the past

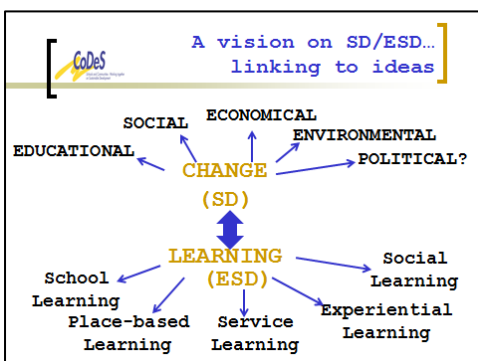

Who has contributed in the past?: ENSI, SEED, CSCT, SUPPORT, UNESCO

A history... linking to the past

Who has contributed in the past?:

“ One critical lesson learnt through the review process is that it is difficult to access data on ESD processes and learning opportunities as these are rarely documented in sufficient detail in the literature...ESD reminds poorly researched and weakly evidenced” (UNESCO, Tilbury 2011, p106)

ESD appears to have an effect on SD producing Economical, Social, Environmental and Educational Changes.

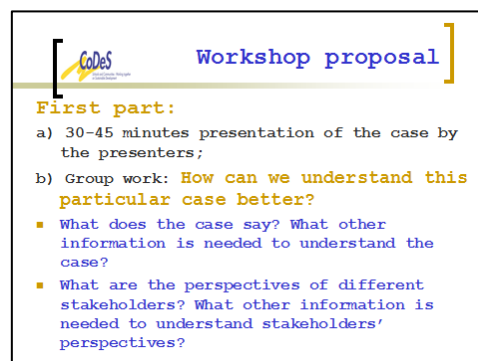

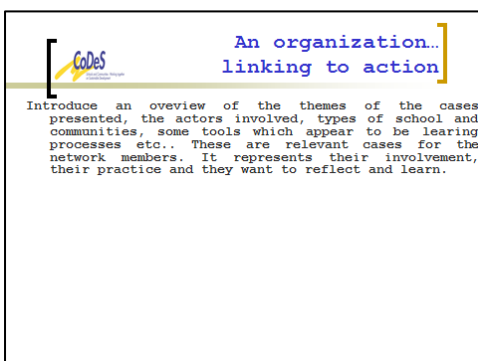

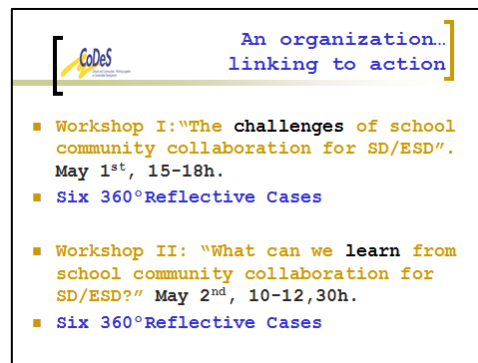

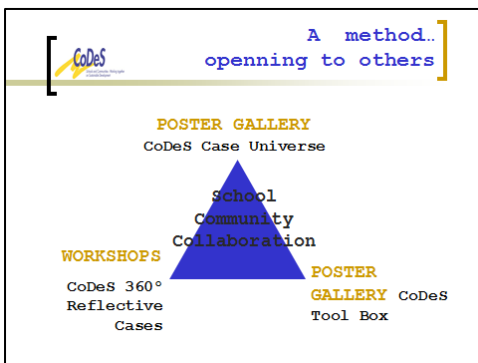

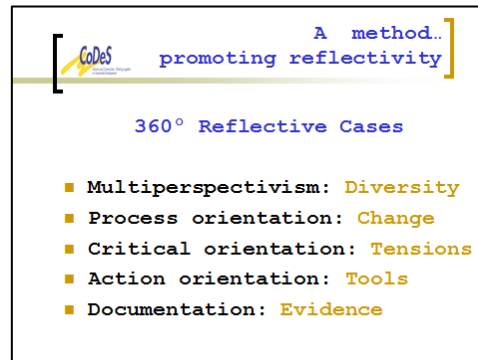

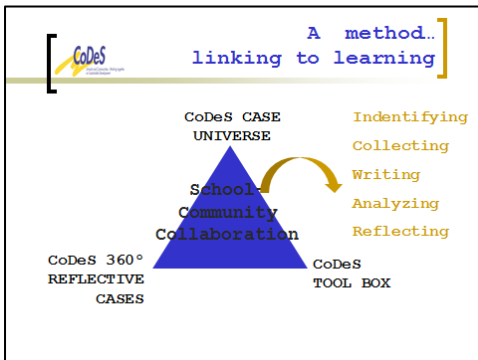

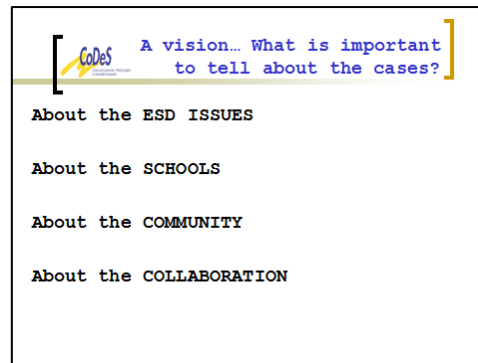

A vision on SD/ESD... linking to ideas

The changes that are unseen or silenced in our communities

SOCIAL CHANGE → SOCIAL EMANCIPATION
(Sociology of absences and emergences Boaventura de Souza Santos, 2005)

CHANGE → ALTERNATIVES
(Interrogating Alterity: Alternative economical and political spaces, Fuller et al. 2011)

Workshop proposal

Second part:

Group work: What challenges/learning does school community collaboration for SD/ESD have?

- What tensions drive changes in this case?
- What challenges/lessons are different stakeholders facing in this particular case?
- What other challenges/lessons can we identify from participants' own experiences which are relevant to this case?

Workshop roles

"The role of different stakeholders in initiating and sustaining school community collaboration for SD/ESD"

- In what ways does this particular stakeholder contribute to the collaboration between school and community for SD/ESD?
- What changes in the way this particular stakeholder work and act would be needed to better contribute to successful school community collaboration?
- What demands would this particular stakeholder put in other community key actors to facilitate the making of changes in the way to work and act? (Write a message to another stakeholder group with the specific demand)
- What resources would this particular stakeholder need to make those changes in the way to work and act?
