What are the goals of GreenSCENT?

- We want to foster awareness and action towards environmental challenges
- Engage young people through inclusive dialogue and activities
- Co-create accessible digital platforms and web applications
- Develop a competency framework or “green” certification (European Certification for Climate and Environmental Literacy)

What are the GreenSCENT Demonstrators?

- Crowdsourced environmental monitoring
- Citizen Journalism
- Interactive Documentaries
- Citizen Science: Microplastics
- Open Innovation Challenges: From Farm to Fork
- Climathon
- CleanAir@Schools
- Augmented Reality App
- Youth Design Assemblies

CleanAir@Schools

- A science and environmental **education initiative** on air quality monitoring
- This initiative allows children to **monitor air quality around their schools** using so-called **low cost measurement devices**
- The primary goal of such citizen science initiative is to **raise awareness** of the links between air pollution and health

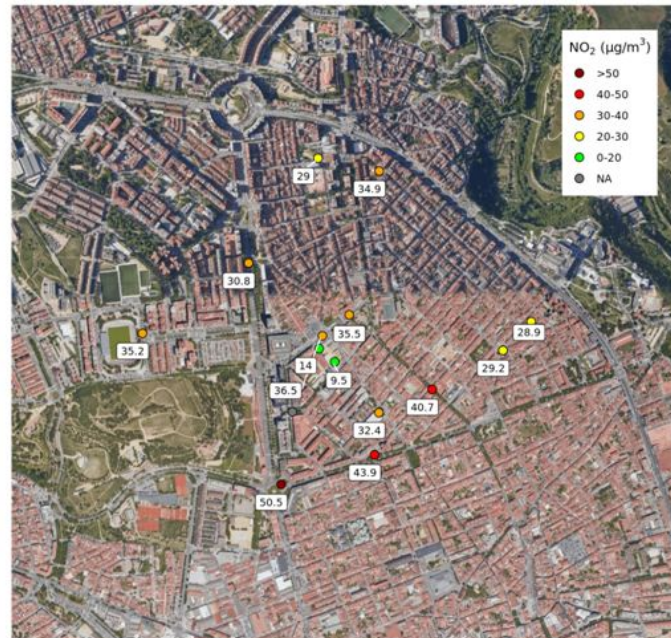

CleanAir@Schools

- Low cost measurement devices known as **passive samplers**, in particular Palmes NO₂ diffusion tubes

CleanAir@Schools

- The results allow children to know the **air pollution levels around their schools**
- And make proposals to improve the air quality of their neighbourhood or city

What is UAB's role in the GreenSCENT project?

- How can we communicate our project in an **accessible way**?
- How can we be **accessible** and **sustainable**?
- Upcoming conference on **Green Digital Accessibility**, which will be held on **2nd December 2022** in **Barcelona**.
- Call for papers is available [here](#).

How can you be involved?

- **Help us** research the **environmental impact** of **media accessibility**
- **Join our Youth Design Assemblies** and **have your say** on how we run the GreenSCENT project.
- Be part of an European network of students and young people from **Denmark, Italy, Serbia** and **Spain**.
- Participate in our **Climathon** to find creative solutions to the challenges of the climate crisis.

A large teal circle containing the GreenSCENT logo. The logo consists of the word 'GREEN' in a dark teal font above the word 'SCENT' in a white font with a teal background. Below this, the tagline 'SMART CITIZEN EDUCATION FOR A GREEN FUTURE' is written in a smaller, dark teal font.

GREEN
SCENT
SMART CITIZEN EDUCATION
FOR A GREEN FUTURE

How can you be involved?

- Participate in the **Green Week event** organized by **UAB!**
- “Creative educational materials towards Green Deal children engagement”
- **30 May 2022, h.9.00 - 13.15, Room 204, Faculty for Translation and Interpreting, UAB.**

Youth Design Assemblies: Timetable

Activity	Dates
Joint online kick-off meeting for all YDA's On a Sunday from 10am-3pm CET	September 25th 2022 for all YDA's
